

NAVIGATING THIS TOGETHER

CLEANLINESS & SAFETY FIRST

We are working with a leading hospital cleaning company to programmatically test, verify, and train our staff on all aspects of keeping our property clean. Our staff has gone through new training protocols to ensure that all guest rooms, common areas, and often-touched surfaces are cleaned rigorously and frequently. Our team has been cross-trained on all COVID-19 protocols and wear protective masks and equipment at all times.

RESERVATIONS ONLY

No surprises here. Our entire property is now reservations only. To provide you control over your personal environment, our food and beverage outlets, pool, beach, and programming are reservations only to ensure no crowds are ever present and to allow ample time for cleaning between uses. We pledge, and ask you to pledge, to maintain proper social distancing whenever around other guests or staff.

CONTACT FREE EXPERIENCE

Check in/out, access your guest room, and room service will all be available from your phone. Our on-property delivery system is contact free too. Send food and beverage orders to your lounge chair on the beach, your guest room, or any hidden nook you find on property....we have over 1500 feet of private beach!

SOCIAL DISTANCING & FACEMASKS

Clear signage and markers are installed throughout the property to ensure intuitive social distancing. In addition, our team will wear protective masks at all times and request that you also wear a mask whenever you are within 6 feet of another guest or our staff.

EAT & DRINK WELL

We have invested in moving our food and beverage experience outside where nature will be in all her glory. Enjoy room service on your waterfront deck, have refreshments delivered directly to your pool or beach lounge by day, or to your fireside Adirondack chair at our new beach bar, Low Tide, at night. Or reserve a private, distanced table with a view of the Sound at The Halyard.

DON'T HESITATE TO ASK IF...

YOU HAVE A
UNIQUE NEED.

YOUR ROOM IS NOT
TO YOUR STANDARDS.

YOU JUST WANT TO VENT.
WE GET IT...
